

Lab Assignment

Lab Assignment

- For this week's lab, you will continue work on **Project 2 – Task 3 (coding)**.
- As a reminder:
 - Based on your written proposal, plan your coding using the technologies you had proposed. Don't forget to also browse through the project's requirement sheet given to you in the previous module 3 to make sure your project meets the specified requirements.
 - The best approach is of course to use the examples that you have worked on in this session II as guidance and source of inspirations. These of course are only to serve as examples but you are expected to do further research on techniques and features to meet the goals of your own project.
 - And while building, don't forget to refer to your wireframes for layout guidance.

Other Reminders

Quiz

Don't forget to take the quiz preferably during lab time today. However, you have until tomorrow Sunday at 11.59PM PST to take it.

Research Paper (DBA Students Only)

Your research paper is due tomorrow at 11.59PM PST. Please email PDF file to the instructor.
